PROFESSIONAL SUMMARY

Creative and results-driven **Fullstack Web Developer** with 4+ years of experience building responsive, scalable, and user-focused web applications. Proficient in **JavaScript, React, Next.js, Node.js, and MongoDB**, with a strong eye for clean UI and performance. Comfortable building from scratch or integrating APIs in complex systems. Also experienced in **SEO-driven copywriting**, helping businesses improve their online presence with persuasive and concise web content.

🛠 CORE SKILLS

- **Frontend:** React.js, Next.js, HTML5, CSS3, Tailwind CSS, Redux, TypeScript
- **Backend:** Node.js, Express.js, MongoDB, Mongoose, REST APIs
- **Tools:** Git, GitHub, Postman, VS Code, Vercel, Netlify
- **Copywriting:** Web copy, landing pages, blog content, product descriptions
- **Soft Skills:** Problem-solving, communication, time management, remote collaboration

---

💼 Work Experience

Freelance Fullstack Developer

Remote | Jan 2021 – Present

- Built and deployed 20+ custom websites and web apps for clients in eCommerce, non-profits, and tech startups.
- Integrated payment systems (Paystack, Stripe), built secure authentication systems, and optimized for SEO and performance.
- Developed RESTful APIs using Express.js and MongoDB, ensuring clean architecture and modular code.
- Wrote landing page and product copy for clients, increasing click-through and conversion rates by up to 35%.

Key Projects:

- [Dollger](#) – Full-featured store with cart, auth, and admin dashboard.

Demo Project:

- [Drivenest](#): Car sale and rental website with email verification during signup.

Tech Stack: React.js, Next.js, Node.js, Express.js, MongoDB, Mongoose, Tailwind CSS, Paystack API

Fullstack Developer – [iDonatio](#)

Remote | July 2025 – September 2025

- Developed a donation management platform for NGOs focused on transparency and accountability.
- Implemented secure user authentication and email verification using Node.js and Express.js.
- Integrated Paystack for seamless donation processing and created an admin dashboard for managing campaigns and funds.
- Enhanced frontend responsiveness and UI performance using React and Tailwind CSS.

Tech Stack: Node.js, Express.js, MongoDB, Mongoose, Paystack API, JWT Authentication

Fullstack Developer – [Meride Haven](#)

Remote | September 2025 – November 2025

- Leading development of a booking and vendor management platform connecting clients to verified service providers.
- Built a secure backend using Express.js and MongoDB, handling bookings, payments, and vendor approvals.
- Designed interactive dashboards for vendors and administrators to manage services and monitor transactions.
- Focused on scalability, smooth API integration, and optimized performance across all devices.

Tech Stack: Node.js, Express.js, MongoDB, Mongoose, Tailwind CSS, Ercas API, JWT Authentication

---

✍️ Freelance Copywriter (Side Role)

Remote | 2020 – Present

- Crafted SEO-optimized blog posts, landing pages, and product descriptions for clients in tech and fashion niches.
- Collaborated with developers and marketers to ensure copy aligns with UI/UX and brand voice.
